

What is Multi Genius Technology for Consciousness? What can you do at the Institute?

From meditation and learning to experience yourself as an infinite being to recognizing & overcoming problems which might threaten to derail your life. Establish again the potential to be cause over your own life and how you experience the world around you.

We believe that it is not the method itself that causes something but that the decision of the being is the actual causation.

EDUCATION & PRACTICE

Are you living the life you want !?
Your imagination is the limit.

Philosophy & Principles

The MGT Institute for Consciousness collects, researches and provides consciousness technology for everyday use. It is composed of superb and reliable techniques for all those who are on the road to truth and greater freedom. Freedom for themselves and for all.

There are many sources of wisdom – philosophical, scientific, religious or in between. We have extensively researched the basic structures of beingness and existence. Insights out of the different schools have been clarified and further developed. Many common denominators have been identified. We are now in a position to share our knowledge and understandings.

We have come to realize that there is no royal path which is right for everyone. Each and everyone of us is a unique individual and potential genius. Our goal is to find what techniques and practices are optimum just for you.

We see ourselves as guides always pointing to the myriad ways of viewing yourself and others and situations. Your own imagination, you

will discover, is the key to exploring your inner space. What you will find there is reflected in the experience of everyday life.

We do have our own preferences and have in depth personal knowledge and experience with several methods which we ourselves have gone through till the end. The point is to find out which methods and techniques are suitable and effective for you.

An amazing adventure is waiting for you too. We look forward to see you living your life exactly as you want.

Know your self & the world around you !
